THE SOLUTION

Optimizing the SAAR 2875 process for the Department of Defense and beyond, our integration blends ServiceNow's dynamic service management with Okta's advanced identity security.

This unique solution ensures streamlined workflows, compliance, and scalability for federal civilian and commercial organizations alike. Say goodbye to manual complexities and embrace efficiency with ServiceNow and Okta.

OPTIMIZED ACCESS MANAGEMENT:

Our solution facilitates seamless user provisioning by automating the process from ServiceNow to Okta. This eliminates manual tasks, streamlines access granting, and reduces delays. Administrators benefit from efficient tools, while users experience swift and hassle-free access, ultimately driving productivity throughout the organization.

BOOST COMPLIANCE AND SECURITY:

Our integration guarantees 2875 compliance with strong audit trails, including inflow digital signatures for non-repudiation. Meeting the strict security demands of the DoD and federal agencies, it offers fully auditable records that meet the highest standards. This is essential for organizations aiming to strengthen their compliance and security in today's digital world.

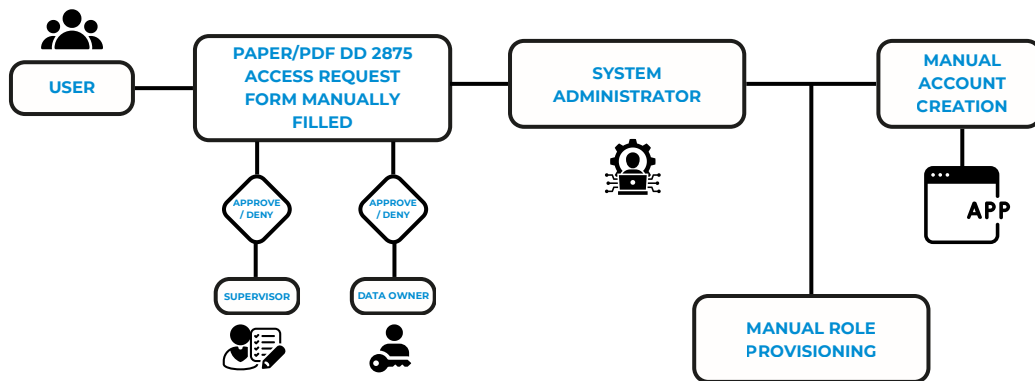

FLEXIBLE AND READY FOR TOMORROW:

Our ServiceNow-Okta solution is customizable to suit the unique needs of any organization. With seamless integration options for additional Okta SKUs like Identity Governance and Workflows, it adapts effortlessly to different operational sizes and needs. This means as your organization grows and changes, your access management grows with it, ensuring your security and workflow efficiency stay top-notch, no matter what the future holds.
